Mission

The American Embassy School provides a balanced education defined by a joyful pursuit of excellence in academics, athletics, arts, and service. AES enables each student to be an inspired lifelong learner and a responsible, compassionate global citizen.

School & Community

Founded in 1952, The American Embassy School, New Delhi is a pre-K-12, not-for-profit day school, located on a 13-acre campus. AES serves students whose parents are employed by foreign service agencies, embassies, USAID, United Nations organizations, and multinational corporations.

POLICY ON CLASS RANK

Due to the small class size and the academic, linguistic, and educational diversity of our international student body, AES does not rank students.

COMPLIANCE STATEMENT

In compliance with NACAC SPGP, AES counselors will disclose any out of school suspension and expulsion.

Graduation Requirements

Students must complete a minimum of 23 credits to graduate. Specific credit requirements are:

English
4 credits

Social Studies
3 credits

Mathematics
3 credits

Fine Arts
1.5 credits

Science
2 credits

World Language
2 credits

Health and Physical Education
2 credits

Curriculum

AES offers a rigorous American college preparatory curriculum throughout grades 9 and 10 that culminates with the option to do the full IB Diploma or IB Courses. In total, AES offers more than 40 IBHL, IBSL, and AP courses. The high school program includes opportunities for internships, fine and performing arts, service learning, and online options through Pamoja and Virtual High School. A full list of courses is available on our website.

New in 2023, the Institute for Design and Innovation (IDI) at AES immerses students in project-based and real-world oriented learning experiences. IDI incorporates social science and English subject standards, in combination with 21st Century skills such as systems thinking, collaboration, and creativity.

Standards-Based Grading

AES High School phased in Standards-Based Grading starting in the 2016-17 school year. A 1-7 achievement scale was adopted in 2018-19. Students earn an overall score of 1-7 for each course each semester which is reported on the school transcript. We no longer calculate GPAs.

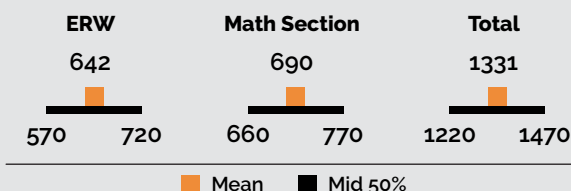

Conversion Chart to Traditional Letter Grades

AES Level of Achievement	Recommended Conversion
7	A+
6	A
5	B
4	C
3	D
1 & 2	F (No Credit)

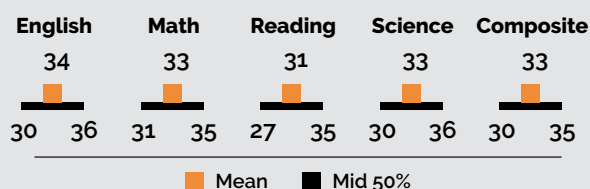

SAT scores - Class of 2023

Testing Limitations for international students & US citizens abroad
Our students have had less access to standardized tests because of fewer test dates abroad, fewer sites offering the test, score cancellations, and technological difficulties. Please take this into account when evaluating our students' applications.

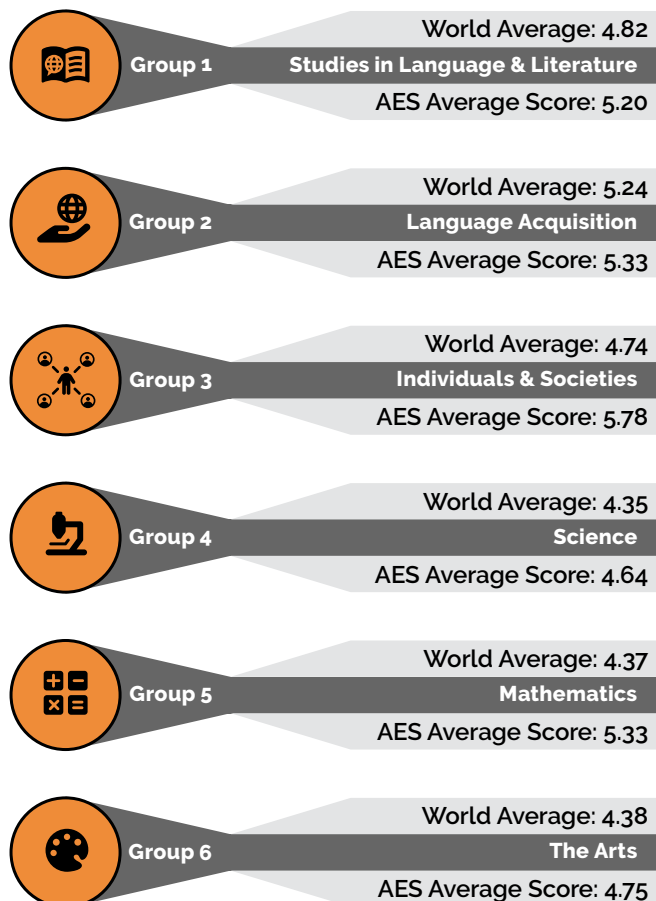

ACT scores - Class of 2023

IB & AP

AES has an open enrollment policy for students wishing to take AP or IB courses or the full IB Diploma. Approximately 75% of students will pursue a full IB Diploma each year. Students may not exceed three HL and/or AP courses in a year.

AP AVERAGE SCORES BY SUBJECT

Enter to Learn. Leave to Serve.

Service

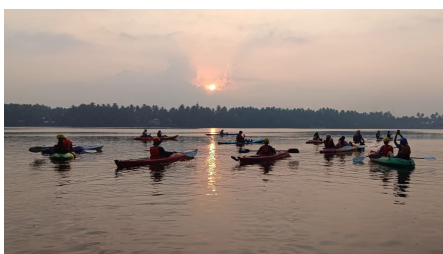

Enter to learn. Leave to serve. Service in all of its forms is at the core of the AES ethos. Students at AES engage in myriad activities to improve the lives of others, from traditional service clubs to innovative CAS projects. Service is such an integral part of the AES experience that our student-led student council, in a blend of service and leadership, teaches other student groups how to request funding, secure faculty support, and arrange service activities.

Wellness

Student and staff wellbeing is a priority at AES. To promote work life balance and self-care, AES limits the number of leadership positions that a student may hold in school run organizations such as class leadership or service clubs, much like AES limits students to 3 IBHL courses or fewer.

There are nine TigerDays throughout the calendar year during which students pursue enrichment activities instead of attending regular classes. Each faculty member offers at least one option which can range from Badminton or Dance to Chess, or even Black Mirror and Philosophy.

The AES Experience

AES is a community rich in diversity in all of its forms, including 38 nationalities in the high school and divergent lived experiences, meaning there is no typical AES experience or way of thinking. Students at AES can hone and develop their ideas through innovative classroom experiences in the Institute for Design and Innovation and explore our magnificent host country through our extensive Minicourse program. Weekly Arts in the Atrium programming includes activities like bollywood dance, student karaoke, and is open for all students, faculty and staff to enjoy.
